

REVVE Micronized BioChar Suspension

Product Benefits

- Improves soil aggregation and structure
- Enhances nutrient retention and reduces leaching
- Increases soil microbial activity
- Improves water-holding capacity
- Supports root development and plant vigor
- Provides long-term soil carbon stability

ACTIVE INGREDIENTS:

5-Micron sized Activated Softwood BioChar (60% dwt) and Humate derived from Leonardite (40% dwt) in Water. 100% Organic. Plus over 60 macro- & micro-nutrients.

Basic Dilution

**For most soil applications mix:
1-4 fl oz Revive per gallon of water
Adjust dilution volume to match spray
equipment or irrigation volume.**

***BioChar is flexible, you may adjust rates as
needed**

**AT THESE RATES,
A 2.5-GAL JUG (320 OZ)
COVERS APPROXIMATELY:**

- 26,700-32,000 sq ft turf
- 80-320 ornamental plants
- 8-32 small trees (10" DBH)
- 4-16 medium trees (20" DBH)
- 2-10 large trees (30" DBH)

Shake container well before each use.

Do not allow to freeze. Do not swallow. Keep out of reach of children and pets. Residue at the bottom of the container is a natural occurrence and we have generously accounted for it.

Treatment Rates

Trees

Apply 1-4 fl oz Revive per inch trunk diameter (DBH)

Dilution

Mix with 10-20 gallons water per tree
Apply evenly around the dripline or apply through soil injection around the root zone.

Ornamental Shrubs and Perennials

Apply 1-4 fl oz Revive per plant

Dilution

Mix with 1-2 gallons water per plant
Apply as a soil drench around the root zone and water in thoroughly.

Turfgrass and Lawn

Apply 10-12 fl oz Revive per 1,000 sq ft

Dilution

Mix with 5-10 gallons water per 1,000 sq ft
Apply evenly using backpack sprayer, pump sprayer, spray rig, or irrigation system. Deeply irrigate after application.
